Using Microsoft OneNote/Class Notebook

Dr Ana Rute Costa, Course Leader | BA (Hons) Architecture
Welcome to Class Notebook

Your OneNote Class Notebook is a digital notebook for the whole class to store text, images, handwritten notes, attachments, links, voice, video, and more.

Each notebook is organized into three parts:

1. Student Notebooks — A private space shared between the teacher and each individual student. Teachers can access every student notebook, while students can only see their own.
2. Content Library — A read-only space where teachers can share handouts with students.
3. Collaboration Space — A space where everyone in your class can share, organize, and collaborate.

How to make the most of Class Notebook in your Class Team:

Start adding materials or collaborating in your Class Notebook today. Use the menu to the left to open or add new pages.

Work in groups. If you’ve added channels to your class team, use the Notes tab in those channels to continue working together in real time. Each channel connects to its own section in the Collaboration Space.

Go full-screen. Launch Class Notebook in full-screen to get more done. Select the double arrow in the upper right of your Microsoft Teams app to expand the window.
